

Alonzo Camille

Software Engineer

Atlanta, GA | (516) 512-1996

Alonzocamille.com | github.com/alonzoc15 | linkedin.com/in/alonzo-camille/ | alonzocamille15@gmail.com

Creative software engineer with the ability to pick up new languages and technologies as needed. Prior to being a software engineer, I worked as an Assistant Rental Manager at Penske Truck Leasing where I managed a fleet of licensed CDL drivers, provided customer support and solutions to specific opportunities.

Software Development Skills

- Debugging, JavaScript, Python, Node.js, React, Express, Redux, RESTful API, PostgreSQL, Bootstrap, Flexbox, AWS, HTML, CSS

Education

Florida A&M University | B.S. in Business Administration | Tallahassee, FL

2013 – December 2017

DigitalCrafts | Certificate in Software Engineering | Atlanta, GA

August 2019 – December 2019

- Software engineering training program covering full-stack development including, but not limited to JavaScript, Python, including an emphasis on cutting-edge frameworks like React/Redux and server-side technologies including Node.js, Express, and PostgreSQL.

Software Development Portfolio

Recipe Junkie | github.com/alonzoc15/front-end-rj

September 2019

- Lead development efforts for a ingredient-generating software application that made use of an API at two endpoints
- User experience allows for the user to search up recipes using a search bar that would then generate a list of recipes based on the results of the user preferences
- Front end project built with HTML, CSS, and JavaScript

Boxrec Championships | github.com/alonzoc15/DCBackend-boxing

October 2019

- Member of a 3-person development team building a niche website for boxing enthusiasts that allows users to create an account and review their favorite champions
- Primary responsibility included constructing a database to be rendered to the website that included boxers and their most important information relating to their career and building an express server to pull out information from the database
- Learned Node.js, Express and PostgreSQL through classroom and online resources to build a website

Chicken Crossing | github.com/alonzoc15/DC-Wk-2-pygame

September 2019

- Member of a 3-person development team building an interactive computer game using the python programming language
- Responsibilities included designing platform, character and gaming environment as well as starting and ending screens
- Built with the Python language

Professional Work Experience

Penske Truck Leasing | Assistant Rental Manager | Tallahassee, FL

April 2018 – July 2019

- Develop and generate consumer and commercial customer relationships that help foster a solution oriented environment
- Directly manage a fleet of local and one-way equipment with assets that achieve values of up to \$11 million
- Worked to achieve and maintain a direct operating profit of at least 30% on a consistent monthly basis

Barnes and Noble Inc. | Marketing Intern | Tallahassee, FL

September 2017 – March 2018

- Assist in marketing and advertising promotional activities (e.g. social media, direct mail, and web)
- Manage and update company database and customer relationship management systems (CRM)
- Work directly with the store manager on day-to-day operations and promotions of the store

Breakthrough Miami | Teaching Fellow | Miami, FL

June 2016 – August 2016

- Developed and implemented daily and weekly unit lesson plans for 9th grade students, administered testing, tracked and analyzed classroom performance
- Conducted strategy groups and one-on-one activities specialized in increasing knowledge in the field of Algebra 1
- Fostered a medium sized classroom environment conducive to learning and promoting excellent student engagement
